ABOUT THE PRACTICE

Riccardo Bertelli Architects

Riccardo Bertelli is an Italian architect with over a decade of international experience. Based in Dubai, his firm specializes in sustainable and innovative design across residential, commercial, and cultural projects.

With roots in Italy and a deep passion for modern materials like nanotechnology, Riccardo blends tradition and cutting-edge techniques to create impactful architectural solutions worldwide.

We call our style 'live minimalism'. Live minimalism is not about a visual look. It refers to inner feelings, to your true self. As architects, we are involved in projects from start to finish, providing full architectural design and consultancy services throughout the construction phase.

OUR SERVICES

- **Structural Design**
Complete structural solutions from concept to execution
- **Residential Space**
Individually crafted, aesthetically stunning residences
- **Interior Design**
Bespoke furniture and interior environments
- **Exterior Design**
Harmonious integration with context and landscape
